Summary

Full Stack Developer with hands-on experience in MERN stack development, specializing in backend development using Node.js, Express.js, and MongoDB. Experienced in building RESTful APIs, implementing CRUD operations, and managing databases for scalable web applications. Proficient in React.js, JavaScript, Git, and API integration.

Skills

Programming & Scripting: JavaScript, Java, Node.js

Frontend Technologies: React.js, HTML5, CSS3, Bootstrap

Backend & APIs: Node.js, Express.js, MongoDB, RESTful API Development, Git, Github

Experience

Backend Developer Intern / Employee

Aug 2025 – Present

Tools Used: Node.js and Express.js.

Rehabionics Health Care Pvt Ltd

- Worked as a Backend Developer focusing on building and maintaining server-side applications using Node.js and Express.js.
- Implemented CRUD operations, authentication logic, and validation to ensure secure and reliable backend services.
- Collaborated with frontend developers to integrate APIs seamlessly with React-based user interfaces.
- Debugged and optimized backend code to improve performance and reduce response time.

Pro jects

AI-Based Intelligent CI/CD Pipeline for Automated Software Delivery

Jan 2026 – April 2026

- Technologies: Jenkins, Docker, AWS EC2, Git, Linux
- Designed and implemented an automated CI/CD pipeline to streamline build, test, and deployment processes
- Containerized applications using Docker and deployed them on AWS EC2 instances
- Reduced manual deployment effort and improved delivery efficiency through pipeline automation

AI-Based Skill Match Job Portal | MERN Stack, Expo Go, Node.js, MongoDB

February 2025 – March 2025

- Designed and developed a full-stack job portal application that intelligently matches candidates with suitable job roles based on skill similarity and profile data
- Built scalable RESTful APIs using Node.js and Express.js for user authentication, job posting, job applications, and profile management
- Implemented secure authentication and authorization using JWT for role-based access (job seeker / recruiter).
- Designed MongoDB schemas and collections to efficiently manage users, jobs, skills, and application data

Awards & Certifications

- Oracle Certified Foundation Associate – Oracle (2024): Demonstrated foundational knowledge in programming concepts, databases, and Oracle technologies.
- Backend Developer Intern Certification – Rehabionics Healthcare Pvt. Ltd. (2025): Successfully completed a 6 month internship as a Backend Developer, gaining hands-on experience in Node.js, Express.js, MongoDB, RESTful API
- Final Year Project – AI-Based Intelligent CI/CD Pipeline (2026): Designed and implemented an automated CI/CD system using Jenkins, Docker, and AWS EC2 for scalable software delivery.

Education

B.E. Computer Science and Engineering

Dhanalakshmi Srinivasan College of Engineering , Coimbatore

Graduated: 2022-2026

CGPA: 8.3 / 10
