CERTIFICATION

Backend Developer

@Rehabionics Healthcare Pvt Ltd
Coimbatore

PROFILE SUMMARY

Full Stack Developer specializing in the MERN stack with skills in Node.js, React, Express, and MongoDB. Proficient in developing responsive and scalable web applications with a focus on user experience. Eager to apply technical expertise and creativity in a collaborative development environment.

PROJECT

Project - 1/2

SpaceGen Aviation – Multi-Service Web Platform

(React, Node.js, Express.js, MongoDB, Vercel, Render)

- Developed a full-stack MERN web application integrating multiple services like Contact, enquiry management.
- Built responsive and user-friendly UI using React.js for seamless user experience.
- Designed and implemented RESTful APIs using Node.js and Express.js.
- Implemented contact/enquiry system with backend validation and API handling.
- Deployed frontend on Vercel and backend on Render.

AI-Based CI/CD Pipeline for DevOps Automation

(Python , Jenkins, Docker, AWS EC2, DevOps)

- Designed an AI-powered CI/CD pipeline to automate build, test, and deployment processes.
- Integrated Jenkins for continuous integration and automated testing.
- Used Docker for containerization and consistent deployment environments.
- Reduced manual errors and improved deployment efficiency using automation

SOFT SKILLS

1. **Communication:** Effective communication to facilitate collaboration and understanding.
2. **Teamwork:** Strong team player with a history of successful group contributions.
3. **Adaptability:** Quick to adjust and thrive in changing environments.
4. **Problem-Solving:** Proactive in identifying and resolving complex issues.
